

MONCLER FOOTWEAR LAUNCHES THE TRAILGRIP LP

*A low-profile evolution of the signature Trailgrip,
designed for a seamless shift from mountain to metropolis*

Milan, March 19, 2026 – The Moncler Trailgrip family expands for a new outdoor season with its lightest technical sneaker to date. Fresh for spring, the Trailgrip LP is a minimal, low-profile style, weighing in at just 380 grams, offering supreme utilitarian function that adapts to diverse terrains, offering a lightweight ride for both the trail and the city.

Remaining true to Moncler's authentic connection to the mountain and its distinctive design DNA, the Trailgrip LP draws inspiration from the world of scrambling, the demanding intersection of rock climbing and hiking. Engineered for comfort, flexibility, and grip across uneven terrain, every detail and fabrication is carefully considered, balancing outdoor technical precision with a refined, city-ready aesthetic.

The midsole is concealed within the silhouette, providing enhanced cushioning while preserving a sleek profile that sits closer to the ground. A bold TPU toe cap, marked with the Moncler logo, wraps the front for reinforced protection and integrates seamlessly with the rugged Vibram® outsole, creating the impression of a single piece construction extending from toe to heel. The upper is designed for adaptive comfort, defined by a sharp M detail. A protective foxing above the outsole shields the upper while reinforcing the original Trailgrip's iconic design language.

The Trailgrip LP is available now in selected Moncler stores and on [moncler.com](https://www.moncler.com).
